3/19

EIR

OCTOBER 2018

For the Township of:

WEST DEPTFORD

Gloucester County, New Jersey

by:

with:

ENVIRONMENTAL
COMMISSION of
WEST DEPTFORD
TOWNSHIP

Acknowledgments

The West Deptford Township Environmental Resource Inventory (ERI) was funded through the Environmental Planning Work Program of the Delaware Valley Regional Planning Commission and by West Deptford Township. Solvay Specialty Polymers, USA, LLC, and COIM USA, Inc., also provided generous financial support for this ERI.

The Environmental Planning Work Program assists local governments in completing plans and studies that balance the natural resources of communities in our region with transportation and development needs. The program identifies and addresses such local environmental issues as land use, water quality and quantity, flooding, wildlife habitat, natural vegetation, open space, and recreation.

The following members of the West Deptford Environmental Commission and the West Deptford Township Committee were instrumental in the development of this ERI:

The West Deptford Environmental Commission

Ken Miller, Chair

Ed Komczyk, Vice Chair

Maureen Concordia, Treasurer

Miriam Reichenbach, Secretary

Eric Agren, Planning Board Representative

Carl Ford, Member

Rebecca Headley, Member

Richard Rodack, Alternate Member

The West Deptford Township Committee

Denice DiCarlo, Mayor

James Mehaffey, Deputy Mayor

Megan Kerr, Committeewoman

Adam Reid, Committeeman and Township Liaison to the Environmental Commission

James Robinson, Committeeman

The following scientists and naturalists offered their knowledge and resources to support the writing and illustration of the ERI:

Karl Anderson, naturalist and former director, Rancocas Nature Center

Brian Hayes, naturalist and expert birder

Michael Hogan, Program Manager, South Jersey Land and Water Trust

Ronald Kegel, naturalist and expert birder

David Keller, Project Coordinator, Fisheries, Academy of Natural Sciences

Table of Contents

Executive Summary	1
West Deptford Overview.....	3
Brief Township History	7
Early History.....	7
The Birth and Development of a Township in New Jersey	8
Land Use and Land Cover.....	10
Physiography and Geology.....	19
Geologic Formations.....	19
Soils.....	24
Septic Suitability.....	25
Agricultural Soils.....	25
Soil Types.....	29
Soil Erosion.....	39
Topography	40
Steep Slopes	43
Hydrology and Water Resources	47
Surface Water.....	47
Surface Water Quality	54
Floodplains and Stormwater	66
Groundwater	77
Drinking Water.....	89
Sewer.....	91
The Value of Biological Resources	95
Natural Vegetation	95
Wetlands	101
Upland Forests.....	102
Grasslands and Agricultural Lands.....	104
Rare Plant Species	104
Landscape Project Priority Habitats	106

Animal Communities	109
Invertebrates.....	109
Vertebrates	110
The Built Environment	120
Important Structures.....	120
Historical Sites	122
RiverWinds	125
Contamination and Known Contaminated Sites	125
Tempo Subdivision/Birchly Court Superfund Site	132
Underground Storage Tanks.....	132
Groundwater Contamination.....	133
Historic Landfills	134
Radon	135
West Deptford's Energy Use	135
Homeowner's Associations (HOAs)	137
Open Space	139
Parks and Recreation	141
Deed-Restricted Open Space Inventory	143
Wheelabrator Wildlife Refuge	147
Preserved Working Farmland	148
Land Types for Conservation.....	148
Development Constraints	149
Conclusion	150
References	151
Local Planning Documents	151
Township History	151
Land Use/Land Cover	151
Geology	151
Soils	151
Steep Slopes.....	152
Hydrology and Water Resources	152

Wetlands	152
Surface Water Quality	152
Floodplains	153
Drinking Water	153
Endangered Species	154
Plant Species	155
Animal Species	155
Contaminated Sites	155
Energy Use	156
Homeowner's Associations	156
Land Conservation	157
